Summit i piani delle scrivanie, delle estensioni e dei tavoli riunione sono realizzati in pannello tamburato 58 mm con bordi e traversi in massello di faggio, cartone a nido d'ape spessore 35 mm e due pannelli di nobilitato nero sulle due facce. Il top puo' essere completamente rivestito in cuoio oppure in cristallo verniciato nero con bordi in cuoio. I sostegni dei piani sono costituiti da tubi in acciaio completamente rivestiti in cuoio e con un piedino in PVC, collegati fra di loro da una struttura in acciaio verniciata nera a polveri epossidiche.

La struttura delle cassettiere e del mobile di servizio e del pannello di cortesia è in pannello di particelle di legno laccato nero lucido poliuretano; il top del mobile di servizio, le antine e i cassetti sono in pannello nobilitato nero rivestiti in cuoio.

Le cassettiere e il mobile di servizio sono ancorati alle gambe tramite delle piastre d'acciaio verniciato nero a polveri epossidiche.

I mobili contenitori h. 95 cm. hanno una struttura in pannello nobilitato nero con spessore variabile nei diversi elementi da 8 mm a 30 mm, con i fianchi laccati nero lucido poliuretano. Il top è rivestito completamente in cuoio oppure è in cristallo verniciato nero con i bordi in cuoio. Hanno due gambe anteriori in tubolare d'acciaio completamente rivestite in cuoio e una struttura di sostegno con due piedini posteriori in acciaio verniciato nero.

I mobili h. 203 cm hanno una struttura inferiore in nobilitato nero con i fianchi laccati nero lucido poliuretano ed i frontali dei cassetti o delle antine rivestiti in cuoio; la struttura superiore è realizzata in pannello di particelle di legno interamente laccato nero lucido poliuretano con la possibilità di essere a giorno o di avere delle antine in vetro fume.

Le poltrone direzionale e conferenza hanno una struttura in tubolare ovale d'acciaio annegata in stampo di poliuretano schiumato a freddo; lo stesso anche per i braccioli. Le poltrone hanno un basamento a 5 razze in acciaio annegato in uno stampo di poliuretano schiumato a freddo integrale di colore nero; sono girevoli, regolabili in altezza tramite pistone a gas e dotate di meccanismo basculante. La sedia su slitta ha una struttura in acciaio verniciato nero; lo schienale e la seduta sono in multistrato di faggio curvato in stampo con poliuretano espanso rivestito con ovatta poliestere. I braccioli sono rivestiti in cuoio.

Guido Faleschini

S U M M I T the desk, extensions and conference table top is a honeycomb fiberboard thickness 58 mm made with a solid beechwood frame, honeycomb carton thickness 35 mm and two black melamine coated panels thickness 10 mm on the two faces (top and bottom). The top can be completely covered by saddle leather or with the outer edges covered in saddle leather and a central glass black varnished underneath. The supports of the tops are tubular steel completely covered by saddle leather and with a PVC foot, connected through a black epoxy powder varnished steel frame. The pedestal, the sideboard cabinet and the modesty panel frame is in particleboard panel black polyurethane lacquered; the top of the sideboard cabinet, the doors and drawers are in black melamine coated panel covered by saddle leather. The pedestals and the sideboard cabinet are fixed to the legs through some steel plates black epoxy powder varnished.

The 95 cm high cabinets have a frame in black melamine coated panel with variable thickness for the different elements from 8 mm to 30 mm, with black polyurethane lacquered side panels. The top is completely covered by saddle leather or is covered in saddle leather only on the outer edges with a central insert in glass black varnished underneath. The frontal legs are in tubular steel completely covered by saddle leather and fixed to a black epoxy powder varnished steel frame with 2 back feet.

The 203 cm high cabinets have a lower frame in black melamine coated panel with black polyurethane lacquered side panels and the drawers and doors fronts are covered by saddle leather. The upper frame is made of particleboard panel completely black polyurethane lacquered, with the possibility to be open or to have smoked glass doors.

The executive and conference armchairs tubular steel frame is embedded in a cold formed polyurethane, the same is also for the arms. The armchairs are equipped with tilt mechanism and are adjustable in height through a gas-piston. The 5 star base is available in black self skinning cold formed polyurethane or in polished aluminium or in black epoxy powder varnished.

The chair on glides have a frame in black varnished steel; the back and the seat are in beechwood multiply panel with polyurethane foam covered by polyester wadding. The arms are covered by saddle leather.

S U M M I T die Platten der Schreibtische, Sideboard und Konferenztische sind in Verbundplatte Paneel 58 mm realisiert. Mit Kanten und querhölzern in Buchenkernholz, Honigwabenkarton 35 mm Dicke und zwei schwarz beschichteten Paneelen auf zwei Seiten. Die Platte kann komplett Leder bezogen sein oder in schwarz lackiertem Glas mit Lederkante. Die Träger der Platten sind aus Stahlrohren ergänzt komplett in Leder bezogen oder mit einem Fuß in PVC, verbunden mit Ihnen von einem Gestell in Stahlrohr schwarz lackiert aus expodischen Stäuben pulverbeschichtet.

Der Korpus des Unterbau, das Sideboard, der Schrank und die Frontpaneel, sind in Stücken Holzpaneel schwarz lackiert glänzendes Polyurethan, die Oberplatte des Sideboard, des Schrank, die Türen und die Schubladen sind in schwarz beschichtet Paneel in Leder bezogen. Die Unterbau und Sideboard Schrank sind und die Beinen zwischen Stahlplatten schwarz lackiert an expodischen Stäuben pulverbeschichtet Farbe. Die Schränke h. 95 cm haben ein Gestell in schwarz beschichtet Paneel mit Dicke veränderlich in den verschiedenen Elementen von 8 mm bis 30 mm, mit die Seiten schwarz glänzend Polyurethan lackiert. Sie haben zwei Vorder Stahlrohr Beine komplett bezogen in Leder mit einem Träger Gestell mit zwei hintere Füßen in schwarz lackiert Stahl.

Die Schränke h. 203 cm haben einem Vorder Gestell in schwarz beschichtet mit Seiten glänzend schwarz Polyurethan lackiert und die Fronten der Schubladen oder die Türen bezogen in Leder, der obere Gestell, ist in Holzstücken Paneel komplett schwarz glänzend lackiert realisiert mit der Möglichkeit Regal zu sein oder Rauchglas Türen zu haben. Direktion und Konferenz Sesseln haben einem Stahlrohrgestell versenkt in eine kalt geschäumte Polyurethan Form derselbe auch für die Armlehnen. Die Sesseln haben einem Stahlfuß versenkt in einem kalt geschäumt Polyurethan schwarz Farbe, sie sind drehbar, höhenverstellbar durch Gasfeder - Pneumatik. Der Stuhl auf Schnitte hat einem schwarz lackiert Stahlgestell, der Rücken und die Sitzung sind in rund Multiplexplatte Ahorn in Form mit geschämt Polyurethan bezogen mit Polyester Watte. Die Armlehnen sind in Leder bezogen.

S U M M I T les plans des bureaux, des extensions et des tables de réunion sont réalisés en panneau nid d'abeilles d'épaisseur 58 mm avec bordures et travers en hêtre massif, carton à nid abeilles d'épaisseur 35 mm et deux panneaux de mélaminé noir sur les deux côtés. Le plateau peut être entièrement en cuir ou en cristal verni noir avec bordure en cuir. Les pieds sont des tubes d'acier complètement recouverts de cuir et avec un pied en PVC. Ils sont fixés entre eux à l'aide d'une structure en acier vernie avec des poudres époxydiques de couleur noir.

La structure des bloc tiroirs, du meuble latéral et du voile de fond est en aggloméré de bois laqué noir (polyuréthane luisant). Le top supérieur du meuble latéral, les portes et les tiroirs sont en mélaminé noir recouvert de cuir.

Les bloc tiroirs et le meuble latéral sont fixés aux pieds à l'aide de plaques d'acier verni avec poudres époxydiques couleur noir.

Les meubles en hauteur 95 cm. ont une structure en mélaminé noir avec épaisseur de 8 à 30 mm, en fonction des différents éléments. Les côtés sont laqués noir (polyuréthane luisant). Le top est complètement recouvert de cuir ou en cristal verni noir avec bordure en cuir. Les deux pieds sont en tubulaire d'acier entièrement recouvert de cuir. Les deux pieds de soutien sur le fond sont en acier verni noir. Les meubles en hauteur cm. 203 ont une structure inférieure en mélaminé noir avec côtés laqués noir (polyuréthane luisant). Façades des portes et des tiroirs recouvertes de cuir. La structure supérieure est en aggloméré de bois complètement laqué noir (polyuréthane luisant). A claire voie ou avec portes en verre fumé.

Les fauteuils de direction et de conférence ont la structure et les accoudoirs en acier tubulaire ovale noyé en polyuréthane moulé à froid. Pied à 5 branches en acier noyé en polyuréthane intégral moulé à froid de couleur noir. Pivotants. Avec bascule et réglables en hauteur grâce à un système gaz. La chaise a une structure en acier verni noir avec dossier et assise en hêtre multiplis courbé avec polyuréthane expansé et recouvert de ouate de polyester. Accoudoirs recouverts en cuir épais.
