# MEDLEY

L'improvviso comparire di una nota che rende compiuta la sinfonia, l'accordo più intonato a strutture e materiali. La maniglia per frontali e contenitori, come una chiave all'inizio del pentagramma, rende il tono di tutta la sequenza e anticipa già la chiusa finale.

*The sudden appearance of a note that makes the symphony completed and an agreement more in tune to structures and materials. The handle for front doors and containers as a key that starts the stave and gives life to the tone of the entire sequence, anticipating its final ending.*

*L'apparition soudaine d'une note qui achève la symphonie, l'accord plus assorti aux structures et aux matériaux. La poignée pour les parties avant et les caissons, telle une clé au début d'un pentagramme, donne la tonalité de toute la séquence et anticipe déjà son dénouement final.*

## INFORMAZIONE TECNICA

**I frontali US** dei contenitori (cassettiere, mobili di servizio, ante legno, ante vetro, mobili portanti) nelle finiture NIBC, NICT, NIAS, NINN, NIBF, NICA vengono forniti standard con maniglia US in alluminio argento lucido.

**I frontali FU** dei contenitori (cassettiere, ante legno, ante vetro) nelle finiture N2GT, N2RO, N2NO, N2WE vengono forniti standard con maniglia FU in Zamak verniciata finitura alluminio.

**I frontali ME** dei contenitori (cassettiere, mobili di servizio, ante legno, ante vetro, mobili portanti) nelle finiture N3NS, N3LG, N3RT, N3RF, N3CB vengono forniti senza maniglia con la possibilità di scegliere una tra le dieci differenti proposte di maniglie cromate. Per facilitare l'abbinamento cassetiera e ante con maniglia a scelta è disponibile un modello di cassetiera senza maniglia frontale ma con presa invisibile laterale.

Ulteriori dettagli sono riportati sul listino tecnico.

## TECHNICAL INFORMATION

**The US front elements** of the modular shelving units (pedestals, service units, blind doors, glass doors, supporting containers) with finishes NIBC, NICT, NIAS, NINN, NIBF, NICA are supplied with standard US handles in glossy silver finished aluminium.

**The FU front elements** of the modular shelving units (pedestals, blind doors, glass doors) with finishes N2GT, N2RO, N2NO, N2WE are supplied with standard FU handles made of Zamak with aluminium painting.

**The ME front elements** of the modular shelving units (pedestals, service units, blind doors, glass doors, supporting containers) with finishes N3NS, N3LG, N3RT, N3RF, N3CB are supplied without standard handle with the option to choose one of 10 available chrome finished ME handles.

To facilitate the matching of pedestals with fronts of modular shelving units (with optional choice of handle), there is a pedestal without handles on the front (including recessed side handle on the drawer fronts).

Further details are available on the technical price list.

## DESCRIPTION

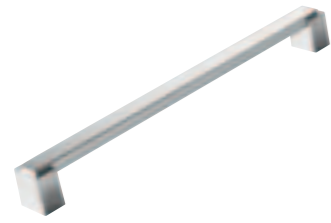

**Le parties avant US** des caissons (caissons à tiroirs, meubles de service, portes en bois, portes en verre, meubles portant) dans les finitions NIBC, NICT, NIAS, NINN, NIBF, NICA sont équipées de poignées US en aluminium argenté brillant.

**Les parties avant FU** des caissons (caissons à tiroirs, portes en bois, portes en verre) dans les finitions N2GT, N2RO, N2NO, N2WE sont équipées de poignées FU en Zamak peintes et finition en aluminium.

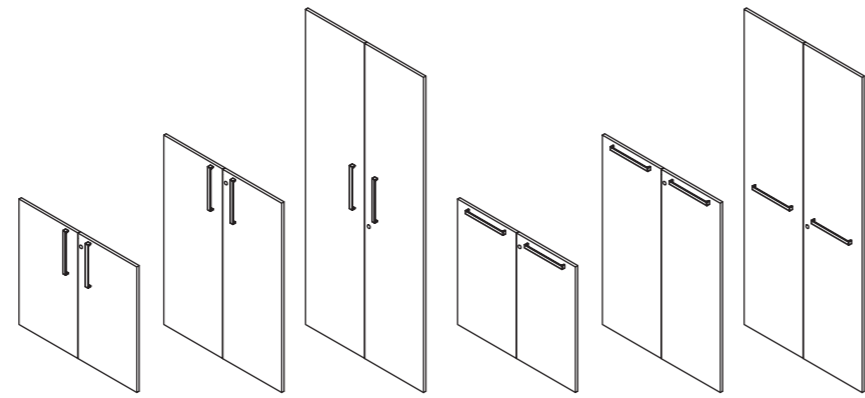

**Les parties avant ME** des caissons (caissons à tiroirs, meubles de service, portes en bois, portes en verre, meubles portant) dans les finitions N3NS, N3LG, N3RT, N3RF, N3CB ne sont pas munies de poignée et il y a la possibilité de choisir une des dix différentes propositions de poignées chromées.

Afin de faciliter la combinaison du caisson avec ses portes, avec poignée au choix, nous vous proposons un modèle de caisson sans poignée frontale mais dispose de poignée latérale invisible.
